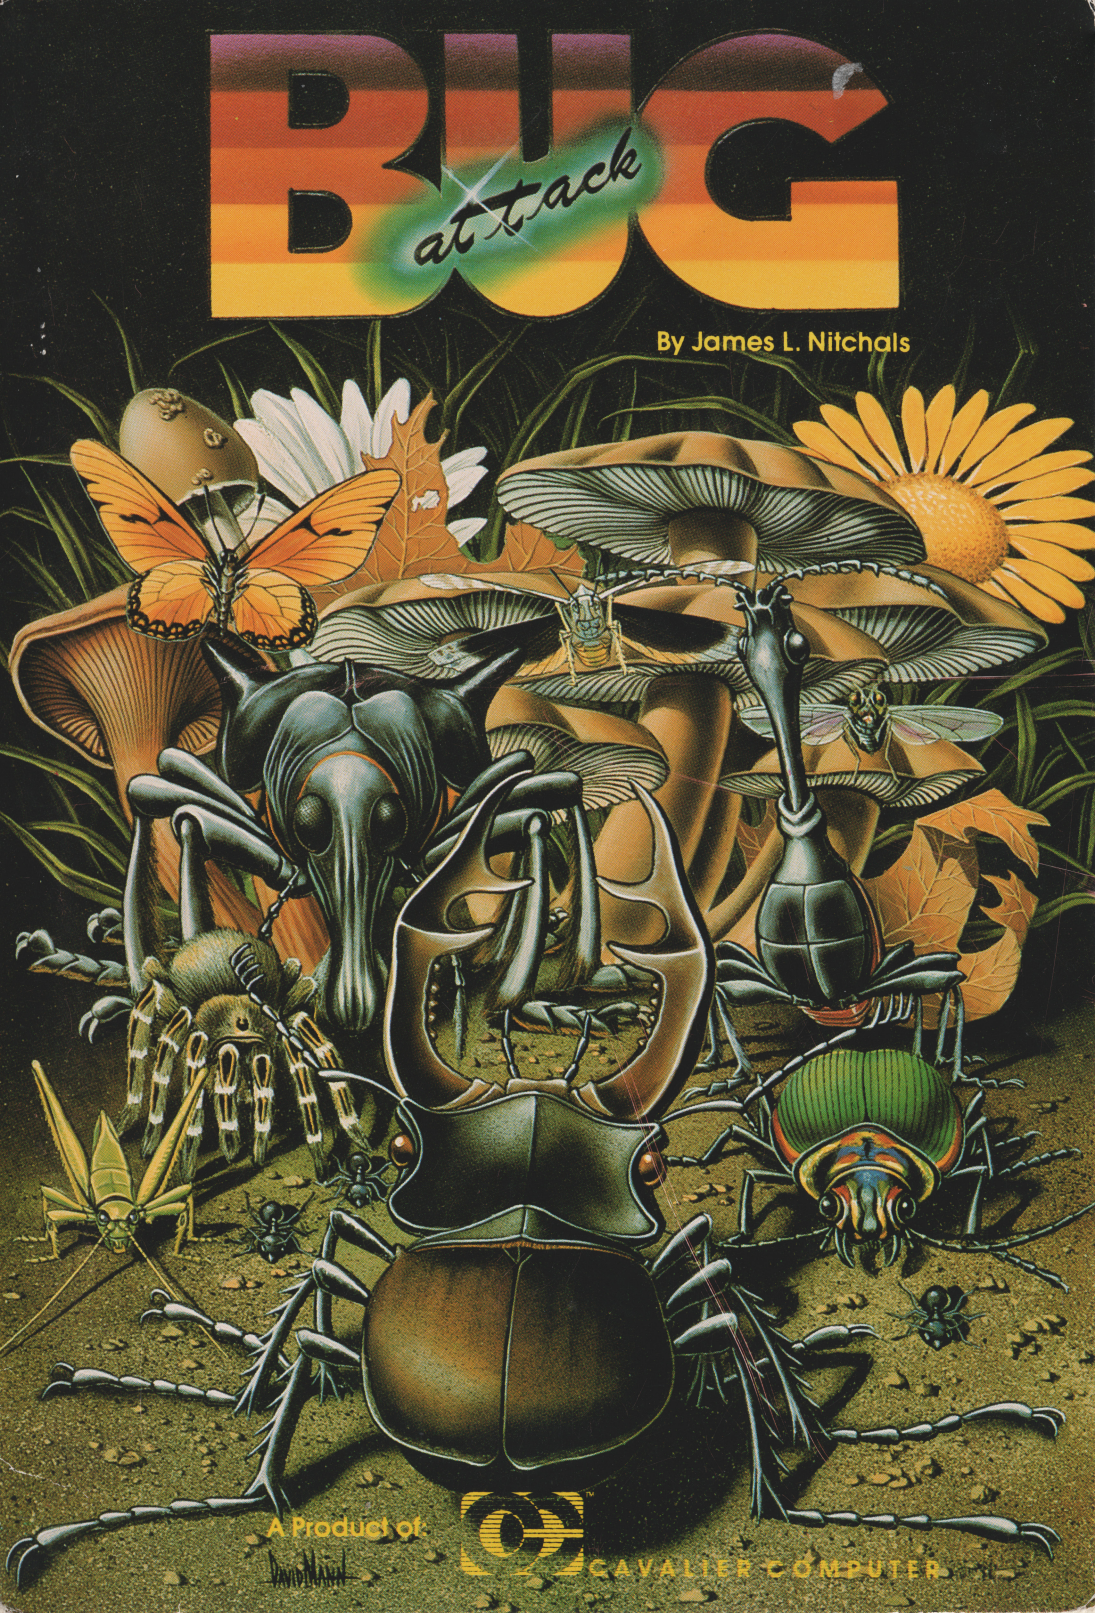
BUG attack

By James L. Nitchals



A Product of: CAVALIER COMPUTER

STARTING THE GAME

Turn on your Apple Computer and place the Bug Attack diskette into the disk drive in slot 6. Then close the drive door and wait for the menu to appear.

STRATEGY OF PLAY

You're the beetle at the bottom of the screen and you're armed with a limitless supply of stingers. You begin the game with 2 spare beetles and as you progress you will be awarded spare beetles. When all the beetles are knifed, the game is over.

PADDLE PLAY

Press paddle button zero to begin play. The paddle knob will control the position of your beetle. Press the paddle button to shoot stingers at the attacking bugs, while avoiding their sharp knives.

KEYBOARD PLAY

If you wish to use the keyboard, press "K" to start the game. Use the "A" and "S" keys to move the beetle left and right. Press the space bar to fire.

SPECIAL FEATURES

If you are interrupted by reality during a game, type the key labeled "ESC" on the keyboard. To resume play, type any other key.

When you see the menu, you may turn off the sound effects by typing "S" before you select keyboard or paddle play.

POINT VALUES

Ants	20
Millipedes	30
Medflies	50
Plants Destroyed	1
Plants Left	5
Remaining Fuel	10 pts./sec.

Never leave the television turned on with any computer game for more than several hours at a time or the picture tube may become etched with the picture.

The bugs are on the loose and they're hungry. You must defend your three gardens (cactus, clover, and flowers) against the attacking bugs (ants, millipedes, and medflies). To defend your gardens against the bugs, plug 'em and plant 'em.

Can you survive?
